

## Information Security Roles and Responsibilities Policy

**Policy Owner:** Alejandro De La Torre

**Effective Date:** July 2, 2025

### Statement of Policy

dmnd.work is committed to conducting business in compliance with all applicable laws, regulations, and company policies. dmnd.work has adopted this policy to outline the security measures required to protect electronic information systems and related equipment from unauthorized use.

### Objective

This policy and associated guidance establish the roles and responsibilities within dmnd.work, which is critical for effective communication of information security policies and standards. Roles are required within the organization to provide clearly defined responsibilities and an understanding of how the protection of information is to be accomplished. Their purpose is to clarify, coordinate activity, and actions necessary to disseminate security policy, standards, and implementation.

### Applicability

This policy is applicable to all dmnd.work infrastructure, network segments, and systems.

### Audience

The audience for this policy includes all dmnd.work employees and contractors who are involved with the Information Security Program. Awareness of this policy applies for all other agents of dmnd.work with access to dmnd.work information and network. This includes, but not limited to partners, affiliates, contractors, temporary employees, trainees, guests, and volunteers. The titles will be referred to collectively hereafter as “dmnd.work community”.

## Policy Compliance

The Security Team will measure the compliance to this policy through various methods, including, but not limited to—reports, internal/external audits, and feedback to the policy owner. Exceptions to the policy must be approved by the Security Team in advance. Non-compliance will be addressed with management and Human Resources and can result in disciplinary action in accordance with company procedures up to and including termination of employment.
