

Secure Development Policy

Policy Owner: Alejandro De La Torre

Effective Date: July 2, 2025

1. Purpose

To ensure that information security is designed and implemented within the development lifecycle for applications and information systems.

2. Scope

All dmnd.work applications and information systems that are business critical and/or process, store, or transmit confidential data. This policy applies to all internal and external engineers and developers of dmnd.work software and infrastructure.

3. Policy

This policy describes the rules for the acquisition and development of software and systems that shall be applied to developments within the dmnd.work organization.

4. System Change Control Procedures

Changes to systems within the development lifecycle shall be controlled by the use of formal change control procedures. Change control procedures and requirements are described in the dmnd.work Operations Security Policy.

Significant code changes must be reviewed and approved by other engineers before being merged into any production branch in accordance with the change management process.

Software Version Control

All dmnd.work software is version controlled and synced between contributors (developers). Access to the central repository is restricted based on an employee's role. All code is written, tested, and saved in a local repository before being synced to the origin repository.

5. **Technical Review of Applications after Operating Platform Changes**

When operating platforms are changed, business critical applications shall be reviewed and tested to ensure that there is no adverse impact on organizational operations or security.

6. **Restrictions on Changes to Software Packages**

Modifications to third-party business application packages shall be discouraged, limited to necessary changes and all changes shall be strictly controlled.

7. **Secure System Engineering Principles**

Principles for engineering secure systems shall be established, documented, maintained and applied to any information system implementation efforts.

Software developers are expected to adhere to dmnd.work's coding standards throughout the development cycle, including standards for quality, commenting, and security.

8. **Secure Development Environment**

dmnd.work shall establish and appropriately protect secure development environments for system development and integration efforts that cover the entire system development life cycle.

9. **Outsourced Development**

dmnd.work shall supervise and monitor the activity of outsourced system development. Outsourced development shall adhere to all dmnd.work standards and policies.

10. **System Security Testing**

Testing of security functionality shall be carried out during development. No code shall be deployed to dmnd.work production systems without documented, successful test results.

11. **System Acceptance Testing**

Acceptance testing programs and related criteria shall be established for new information systems, upgrades and new versions.

Prior to deploying code, a Release Checklist MUST be completed which includes a checklist of all Test Plans which show the completion of all associated tests.

12. Protection of Test Data

Test data shall be selected carefully, protected and controlled. Confidential customer data shall be protected in accordance with all contracts and commitments. Customer data shall not be used for testing purposes without the explicit permission of the data owner and the Security Team

13. Acquisition of Third-Party Systems and Software

The acquisition of third-party systems and software shall be done in accordance with the requirements of the dmnd.work Third-Party Management Policy.

14. Exceptions

Requests for an exception to this Policy must be submitted to the Security Team for approval.

15. Violations & Enforcement

Any known violations of this policy should be reported to the Security Team. Violations of this policy can result in immediate withdrawal or suspension of system and network privileges and/or disciplinary action in accordance with company procedures up to and including termination of employment.
